INSTALLATION PROCEDURE

- 1 Fix the device into the box
- 2 Clip the screwless cover plate into the mechanism (screwdriver not needed)
- 3 Complete the work by clipping the plate. The screwless cover plate guides you in this process

Innovative docking system for multi-gang installation

Visual quality of the final seal:
perfect alignment of all the products.

Thanks to an innovative docking system, the support frames can be perfectly and easily joined for multi-gang installation.

The new system guarantees the stability and solidity of the devices during assembly: installation of the plastic cover of the mechanism and the cover plate.

Perfect for
installations in
both horizontal
and vertical
orientation.

Valena

Life/Allure

with Netatmo

Turn the house
into a connected
home.

Valena Life/Allure with Netatmo is a radio based solution for the connected home. The intelligent products communicate with one another via radio Zigbee. This means there is no need for specific or extensive cabling. Also, only with a few products, you can create lots of individual solutions for a more customised feel at home.

WIRELESS LIGHTING CONTROL

APP CONTROL FOR EASE OF USE

All functions in an Valena Life/Allure with Netatmo installation can comfortably be controlled on your smartphone or tablet: switching individual lights on or off, controlling roller blinds, curtains and electrical appliances or triggering more complex scenarios - using the app, you have everything under control. And you stay connected with your home, no matter where you are.

VOICE CONTROL

Using voice commands, the installation can be managed without lifting a finger, thanks to your favourite voice assistant

**HOME +
CONTROL APP**

**CONNECTED
GATEWAY**

**AT HOME/LEAVE
HOME WIRELESS
CONTROL**

**WIRELESS LIGHTING
AND OUTLET SWITCH**

Radio technology with wired and battery-operated wireless controls makes the whole installation flexible. The wiring does not have to be changed to integrate new functions or move a switch to a different location. Whether during installation or changes at a later stage everything can be completed quickly, simply and cost-effectively.

**CONNECTED SWITCH
FOR ROLLING
SHUTTERS**

CONNECTED DIMMER

**SLEEP/WAKE UP
WIRELESS CONTROL**

RADIO TECHNOLOGY

All the connected products are **Zigbee 3.0 certified**. They communicate with each other via a Zigbee radio signal emitted by a Gateway connected to your Wi-Fi network.

Zigbee 3.0 is a low-power, long range and robust radio protocol.

SIMPLE AND FAST PAIRING

The system configuration doesn't require tools or software. Wireless controls are paired by tapping them on the wired products, or by using the Home + Control app.

Application examples

MyHOME_Up

Home automation evolution

MyHOME_Up App

MyHOME_Up is the integrated modular home automation system based on the BUS technology with 2 wires pair that offers smart solutions in terms of:

- **comfort**, thanks to the custom setting of lights, shutters, temperature and music in every room.
- **safety** to prevent unwanted intrusions.
- **control of consumption and power levels** for energy and cost savings and to avoid overload black-outs.

MyHOME_Up is also an open system, able to integrate with **systems and devices of other brands** to perform advanced functions.

Control **MyHOME_Up** as you wish

CONTROL WITH SMARTPHONE AND **MyHOME_Up** DEDICATED APP

This is done using the specific **MyHOME_Up** App installed in the Smartphone of the user. The connection to the system takes advantage of the MyHOMEServer1 gateway connected to the home Wi-Fi network and the Internet through the modem router.

No application configuration by the user is required. All the devices to manage are in fact already recognised when the system is put into operation, which is done by the installer using the same App installed in the own Smartphone.

With **MyHOME_Up** application it will be possible to:

- control the lights;
- control the shutters;
- adjust the temperature;
- control the controlled socket;
- display the instantaneous consumptions of the loads (washing machine, cooker etc.);
- control the devices of other brands (LIFEX, Philips Hue lamps etc...);
- open door locks;
- listen to the music from the Nuvo multiroom sound system;
- create and manage scenarios.

MyHOME_Up is available free for iOS devices from App Store and for Android devices from Play Store.

CONTROL WITH HOMETOUCH TOUCH SCREEN

Thanks to the simple and immediate interface, with this touch device - item 3488 (black) and item 3488W (white) -, users will have all the functions of the **MyHOME_Up** system at their fingertips:

- Lighting;
- Shutter automation;
- Temperature control;
- Nuvo multi-room sound system;
- Scenarios;
- Function possible thanks to the integration of third-party devices and systems.

In addition, HOMETOUCH also integrates the BTicino video door entry system and can be used as connected internal unit for the handling of calls both locally and from the Smartphone, using the free **DOOR ENTRY App** for HOMETOUCH.

Technology and flexibility in the office

"Nomadic" working practices and the constant desire to optimize productivity are influencing the way in which office buildings are designed. An infrastructure is therefore needed for flexible installation of electrical equipment and communication networks at the desired point.

Flush workstation for commercial buildings

Make the most of the 200 Mosaic functions with Valena Life aesthetics for a functional and compact workstation solution.

SPECIAL 8 MODULE AND 2x8 MODULE SUPPORTS*

With Valena Life plate available in white and aluminium versions.

CONTROL KNX

With aesthetic lighting.

Automation system

The Valena offer includes devices which conform to the KNX international standard, which is the most widely used technology for the intelligent management of buildings.

MAIN APPLICATIONS:

- Lighting control
- Shutter/slat controls

		Installed and works like a conventional switch/2-way switch.
		But in addition, it switches off automatically after 10 minutes if no movement is detected by the built-in IR detector cell.
		Detection field 160°. Detection range 8 m
		Compatible with any lamp
		- 12-150 W: incandescent and 230 V halogen
		- 12-150 VA: lamps with ferromagnetic or electronic ballast
		- 8-30 W (or 650 mA): LED and CFL
		All types of lamp can be mixed on the same circuit.
		Ideal for rooms where the light may be left switched on needlessly (child's bedroom, box room)

LEGRAND PACKAGING

Products always PROTECTED

Thanks to the flowpack, the products can be easily identified and remain protected until the installation.

ADVANTAGES FOR WHOLESALE AND RETAILERS

- products are individually protected and can be changed on or placed in bulk
- the product is always visible for a faster identification

ADVANTAGES FOR THE INSTALLERS

- the product is protected throughout the delivery process, until the installation
- all useful information is printed on the flow pack
- additional information by scanning the QR code

BT-MYHOMESERVER1

BT-3488

Pack	Cat.Nos	Control server using the app
1	BT-MYHOMESERVER1	 Server to associate devices during the system starting-up and for the local and remote management of the functions by the user with the specific MyHOME_Up application for Android and iOS smartphones or tablets
1 1	BT-3488W BT-3488	HOMETOUCH - Touch screen 7" For the management of all MyHOME_Up functions, that can be integrated with the video door entry system and with indoor and outdoor Netatmo cameras, to be used as connected internal unit. To use the home automation functions, configuration is not necessary. It is possible to display the MyHOME_Up system status and control the integrated functions (lights, automation, scenarios, burglar alarm, temperature management, Nuvo music system...). Thanks to the "DOOR ENTRY for HOMETOUCH" application, available both for Android and iOS operating systems, it is also possible to manage the video door entry functions of a BTicino 2 wires system using the 7" capacitive display or the smartphone. Flush-mounted installation with box for masonry walls (Cat.No BT-3487) or wall-mounted installation with the supplied metal bracket  White Black/Grey
1	BT-3487	Box for flush-mounted installation  Box for flush-mounted installation of the HOMETOUCH Touch screens Cat.Nos BT-3488 and BT-3488W. Width 197 mm, height 148 mm and depth 52 mm.
1	BT-3487AP	 Support for flush-mounted installation on plasterboard walls of the HOMETOUCH Touch screens Cat.Nos BT-3488 and BT-3488W.
1	BT-F459	Driver manager  Integration platform with other brand systems. 6 DIN modules.

integration and control

MyHOME_Up App

Mobile device App that allows:

- the installer to easily associate the devices together when starting up the system, thanks to a self-learning procedure.
- the user to manage his home home-automation wherever he is.

DOOR ENTRY for HOMETOUCH App

Allows the user to manage the video internal unit calls locally and remotely using the smartphone or with a simple touch open the gate, activate the cameras and the video door entry answering machine.

1: Power factor corrected fluorescent lamps, discharge lamps.

2: The transformer must be loaded at its rated power and however never less than 90% of this power. It is preferable to use a single transformer rather than several transformers in parallel. For example it is better to use a single 250 VA transformer with five 50W spotlights connected rather than use five 50 VA transformers in parallel each with a 50 W spotlight.

3: Account must be taken of the transformer yield to calculate the effective power of the load connected to the actuator. For example if a dimmer is connected to a 100 VA ferromagnetic transformer with yield 0.8, the effective power of the load will be 125 VA.

4: The symbol on the actuators refers to the shutter reducer motors.
